

Some suggestions for DIB exam:

1. At least take some preparation for the exam
2. Choose Questions Wisely, first try to touch all short notes (tika), short questions, short differences
3. Set the Priority
4. Attempt all the Questions
5. Try not to write in descriptive way
6. Try to write answer point wise, Write Brief, to the Point Answers
7. Do not write some vague words or sentences. It will decrease your marks
8. Do not write unnecessary sentences which is not related with the questions
9. Attempt those questions which you are confident about, answer them with your best abilities.
10. Do not leave a question un-answered unless there is negative marking.
11. Do not get stuck at a particular question for too long, have a high level strategy in place for time management.
12. Must not copy the same answer from other sources like web
13. Use common and simple words to explain your answer.
14. Do not just write to increase the length of your answers. Instead, compose your answers by infusing the right keywords.
15. Carry at least 2 pens.
16. Clean answer sheet, use each page properly, Space out each word properly
